GLOBAL SPACE INNOVATION CONFERENCE 2015
“From Government Programmes to Entrepreneurial Actions”

Welcome to the GLOBAL SPACE INNOVATION CONFERENCE (GLIC 2015)

The conference is the latest in the IAF’s highly successful thematic “Global Series” conferences, which began with the Global Lunar Conference (GLUC) in 2010 (Beijing, China), followed by the Global Exploration Conference (GLEX) in 2012 (Washington, US), and the Global Space Applications Conference (GLAC) in 2014 (Paris, France).

The primary goal of the GLIC-2015 is to provide to governments, space agencies, industries and entrepreneurs a forum for exchange of experiences in innovation management and technology transfer.

GLIC-2015 will be a networking event that highlights, investigates and discusses the key factors that enable successful space industry innovation and technology transfer to entrepreneurs. The conference will feature prominent individuals from the international space field as speakers and panelists discussing the major influencing dimensions of entrepreneurship and new venture creation.

GLIC 2015 is a high-level conference featuring prominent keynote speakers, an exhibition and six thematic plenary panel sessions:

Panel 1. The View From Entrepreneurs
Panel 2. Socioeconomic Environment for Entrepreneurs
Panel 3. Entrepreneurial Education and Training
Panel 5. Financial Support for Venture Creation
Panel 6. Policies and Laws for Entrepreneurship

A Results and Recommendations session will summarise the findings of the panels.

GLIC 2015 will also offer an attractive Opening Ceremony and interesting social programme with plenty of networking opportunities.

Please see the GLIC 2015 website for additional information on the Conference: www.glic2015.org.
