**IAF Awards**

- **IAF World Space Award**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **Allan D. Eustace Memorial Award**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **IAF Hall of Fame**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **IAF Distinguished Service Award**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **Luigi B. Napolitano Award**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **IAF Student Competition**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **IAF Excellence in DS Diversity Award**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **IAF Young Space Leaders Recognition Programme**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.

- **IAF Emerging Space Leaders Grant Programme**
  - Criteria: A contribution to space science, space technology, space medicine, space law or any other aspect of space, and significant contributions to the advancement of astronautics in the recipient’s field of work (at least one letter of support by international personalities shall be required) or any other significant contributions to the advancement of astronautics.
