

4th International Space Forum at Ministerial Level – The Mediterranean Chapter

*“Space Technology and Applications meet
Mediterranean Needs”*

Reggio Calabria, Italy
5 September 2019

Organizers:

The International Space Forum is an annual gathering at Ministerial Level aiming to encourage a global and local discussion and debate on the necessity of promoting a greater involvement of Universities and national Academies into space activities.

This fourth edition of the International Space Forum – the Mediterranean Chapter (ISF 2019) – is expected to bring together Ministers of Education, Science and Research from the Mediterranean Countries, Heads of Space Agency, representatives of Universities and Academia involved in space activities, as well as members of International Space Organizations, with the intent to encourage the discussion on how Space technology and applications can support the needs of the Mediterranean region.

3 Keynote Speeches on:

- Maritime Surveillance
- Blue Economy
- Space Education, Cooperation, and Scientific Management
