

Save the Date!

The International Astronautical Federation (IAF) is pleased to announce its **67th International Astronautical Congress (IAC)** which will take place for the very first time in Guadalajara, Mexico from 26 – 30 September 2016. The IAC 2016, co-organised by the International Astronautical Federation (IAF), the International Institute of Space Law (IISL) and the International Academy of Astronautics (IAA) will be hosted by the Mexican Space Agency (AEM).

The IAC is the world’s biggest space event gathering all the relevant actors in the space sector.

The IAC 2016 theme is ‘Making Space Accessible and Affordable to all Countries’. The Congress in Guadalajara will focus on the importance of strengthening international cooperation to ensure that all countries can be part of the space exploration already today and, one day, become major contributors to the space sector.

The IAC is a professional platform through which over 40 administrative and technical committees support the International Astronautical Federation in its mission to advance knowledge about space and to foster the development of space assets by facilitating global cooperation.

Members of the press are invited to save the date.
