

GLEC 2019 Seminar on the Next Generation's view on Space for Emerging Countries

The upcoming Global Conference on Space for Emerging Countries - GLEC 2019 to be held from 24 - 26 April 2019 in Marrakech, Morocco will feature on Thursday 25 the GLEC 2019 Seminar on the Next Generation's view on Space for Emerging Countries.

The Seminar taking place from **14:30 to 16:00** is organized in cooperation with the **Space Generation Advisory Council (SGAC)**. The event aims to engage Moroccan and African students and young professionals, and provides an opportunity for capacity building and policy input on space applications.

The programme will feature 3 keynote addresses, 5 working group discussions on the topics of:

- Regional Collaboration on Space Applications,
- IoT and Space Applications,
- Legal and Policy Challenges of Space Applications,
- Technology Development for Socio-Economic Development,
- Engagement of the Next Generation from Emerging Countries.

At the end will take place a short panel discussion where participants can ask questions.

Moreover, an exclusive keynote will be given remotely by **Charles F. Bolden**, NASA Former Administrator.
