IAC 2025 Sets New Record with Over 3,000 Early Bird Registrations!

Paris / Sydney, 10 July 2025 — The International Astronautical Federation (IAF) is proud to announce a new milestone in its history: the 76th International Astronautical Congress (IAC 2025), set to take place in Sydney, Australia, from 29 September to 3 October 2025, has already received **over 3,000 Early Bird registrations** — surpassing the previous record held by IAC 2024 in Milan.

This extraordinary achievement reflects the global space community's growing enthusiasm and commitment to shaping the future of space. Held under the theme "*Sustainable Space: Resilient Earth*," IAC 2025 will serve as a global platform for fostering dialogue, collaboration, and innovation on space-based solutions for Earth and beyond.

Organized by the International Astronautical Federation (IAF), hosted by Space Industry Association of Australia (SIAA) and co-hosted by Australian Space Agency and NSW Government, IAC 2025 will welcome thousands of space professionals, decision-makers, academics, industry leaders, astronauts, and students from across the globe. The comprehensive programme will feature over 200 technical sessions, high-level plenaries, ministerial and agency roundtables, and the IAF Global Networking Forum (GNF) — offering unmatched opportunities for knowledge exchange, strategic partnerships, and global visibility.

As one of the world's most iconic and dynamic cities, Sydney provides a spectacular backdrop for this landmark event, combining world-class infrastructure, diverse culture, and a vibrant aerospace ecosystem.

Join us at IAC 2025 — where science meets policy, exploration meets innovation, and people meet possibilities.

About IAC 2025 Host:

Space Industry Association of Australia (SIAA)

Space Industry Association of Australia is the national peak body for the space industry in Australia. SIAA and its member companies work closely with Australian governments, international partners, academia, and industry to advance Australia's space industry and economy. SIAA hosted the 68th International Astronautical Congress in Adelaide, Australia in 2017, where the establishment of the Australian Space Agency was announced, and is proud to host the 76th International Astronautical Congress in Sydney, Australia in 2025.
