Dubai is home to more than 350 nationalities and boasts the most modern urban infrastructure found anywhere in the world. As the Middle East’s biggest growing, most dynamic and exciting cosmopolitan city, Dubai is a true melting pot of different cultures and lifestyles. The best way to understand Dubai’s wonders and achievements is to see them first-hand. Firstly establishing itself as a trading commercial and trade hub, the city is known for its state-of-the-art infrastructure and a world-class business environment.

Dubai is at the centre of a bustling region, which is emerging as a significant force within the global economy. An area that stretches from North Africa to South Asia and the Caspian Sea to South Africa that comprises 42 countries and some of the world’s fastest-growing emerging markets. One of the unique qualities of the city is its multicultural lifestyle. Expatriates comprise over 80% of Dubai’s population. More than 150 nationalities live and work together within a safe environment with a far lower crime rate than many other major international cities.

Dubai is known for its state-of-the-art infrastructure and a world-class business environment. Well-known to be a diverse one with a liberal business environment. Dubai’s economy is well-rooted in the oil sector, which comprises 42 countries. Dubai’s economy is well rooted in the oil sector, which makes up 30% of the UAE’s GDP comes from oil revenues. Within Dubai’s outlook and commitment to free trade. Contrary to popular belief, the economy of Dubai is well-known to be a diverse one with a liberal business environment. The International Astronautical Congress (IAC) is the world’s premier global space event. Each year, the IAC changes country, theme and local organizer, enabling opportunities, contacts and potential partnerships.

What is the IAC 2021 about?

For the very first time, the International Astronautical Congress (IAC) will open its doors to the global space community in the United Arab Emirates, the first Arab country to host the IAC since its establishment in 1950. With the theme "Inspire, Innovate & Discover for the Benefit of Humankind", the IAC 2021 looks forward to making a contribution to research, technology, exploration, regulation and education. Sessions provide the latest advances in space science, technical sessions, interactive presentations and special events. Presenting scientific and technological breakthroughs, innovative ideas, and solutions to a range of national and international needs and challenges. The IAC technical programme provides you with maximum networking and career development opportunities.

Who is the IAC for?

The IAC is the one place and time of the year where all global space actors come together. The event attracts more than 4,000 participants each year. Covering all space sectors and topics, it offers everyone the latest space information and developments in academia and industry, networking opportunities, contacts and potential partnerships. Each year, the IAC changes country, theme and local organizer, enabling all to learn more about, and be a part of, the world’s space scene.

What does it consist of?

Plenary Programme

High-level speakers present the latest trends and insights in various research, technology and exploration. During thematic plenaries, high-level lectures and late breaking news sessions, experts discuss and answer questions on the latest space developments.

Technical Programme

Presenting scientific and technological breakthroughs, Technical Sessions, interactive presentations and Special Events. More than 2,000 papers are presented annually.

Public Programme

The Public Programme features the IAC biggest events, such as the IAC Opening Ceremony, IAC Closing Ceremony and all activities open to the general public.

Associated and Side Events

As such, the IAC will be an opportunity to sharpen your experience and vision for space exploration with one of the most heterogeneous audiences worldwide.
