2020 Luigi G
Napolitano Award

IAF is pleased to announce the opening of the call for applications for the 2020 Luigi G Napolitano Award. This award is assigned every year to one young scientist who has significantly contributed to the advancement of Aerospace Science. The award consists of Luigi G Napolitano Commemorative medal and a certificate of citation given at the IACs every year.

The deadline is 30 August, 2020. Read more here <http://www.iafastro.org/the-2020-luigi-g-napolitano-award-call-for-applications-is-now-open/> for nomination and selection criteria.

IAF EVENTS

Opportunities (Upcoming Events):

October 12-14,
2020

The theme of the IAC 2020 – The CyberSpace Edition will indeed be about the IAF Motto: **“IAF Connecting @/I Space People”**. The IAF has understood that all the measures to address the COVID-19 pandemic that rely on social distancing and social isolation are placing a huge strain on communities. As the world is grappling with this massive challenge, the role of the Federation in the space community has become of paramount importance in connecting people back together. **Virtually and for free, we will embrace resilience by being connected together.** <http://www.iafastro.org/events/iac/iac-2020/>

IAC 2020 – The CyberSpace Edition will be hosted on the vFairs platform. Keep an eye on IAF website for more updates as the IAC 2020 – The CyberSpace Edition Technical Programme takes shape!

July 18-26,
2020

SpaceGen United – SGAC's very first online Congress! will be a gathering of more than 150 participants, experts from across the space industry as well as SGAC Alumni, all during the course of a week. As a unique and dynamic experience, **SpaceGen United** will include workshops, podcasts, virtual coffee hours, a trivia night and many other online gatherings and challenges for you to take part in. There will be #AskMeAnything sessions with SGAC Alumni and much, much more to look forward to! For more details about congress events, see here: <https://spacegeneration.org/spacegen-united>

IAF IPMC
Workshop

We are glad to announce the 2020 edition of the IPMC Young Professionals Workshop, to take place on Sunday October 11, 2020. Our goal is to gather input from young professionals in the international space community to gain the knowledge needed to better develop and empower the next generation workforce and offer them a great formative opportunity. This year's attendance is free of charge and implies no need to travel, since it is based on a virtual online forum associated with the IAC CyberSpace Edition. Details are also available online at:

October 11,
2020

<http://www.iafastro.org/activities/education/young-professionals-workshops/> For any question, the Workshop Organising Committee (WOC) can be contacted at ipmc.ypp.workshop@gmail.com. We hope to welcome many great YP's from WD-YPP members' organizations to participate to the workshop.

June 14 – 18,
2021

The International Astronautical Federation (IAF) is pleased to invite you to the Global Space Exploration Conference (GLEX) 2021 to take place in St. Petersburg, Russian Federation from 14 – 18 June 2021. The Conference, co-organized by the International Astronautical Federation (IAF) and ROSCOSMOS, will bring together leaders and decision-makers within the science and human exploration community – engineers, scientists, entrepreneurs, educators, agency representatives and policy makers. For more details, read here <http://www.iafastro.org/events/global-series-conferences/glex-2021/>

May 31 – June 2
2022

Following its mission to promote international development and share knowledge, the International Astronautical Federation (IAF) and its member the [Norwegian Space Agency \(NOSA\)](#) are pleased to announce that the 2022 Global Space Conference on Climate Change (GLOC 2022) will be taking place in Oslo, Norway on 31 May – 2 June 2022. GLOC 2022 will contribute to the global efforts to better understand and battle climate change through the use of space-based services and applications. For more details, read here <http://www.iafastro.org/events/global-series-conferences/gloc-2022/>

MEMBER'S SECTION

Space events in the month of June and July 2020:

Interactive Space Program (ISP-2020)
July 20-August 21, 2020, online

Commercial Space Program
July 24-25, 2020, online

Future Space 2020
July 8, 2020, Global online

7th Annual NASA ES Forum
July 8-10, 2020, online

SpaceGen United Congress
July 18-26, 2020, online

Biannual Molecular Origins of Life
July 9-10, 2020, online

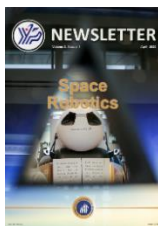

YP Events @ IAC

1. Next Generation Plenary.
2. Global Technical Sessions.
3. Cross Cultural Presentation Workshop.
4. Networking Receptions for Young Professionals.
5. Global Networking Forum.

These events are exclusively for you. IAC 2020 – The CyberSpace Edition is a virtual congress, so some of the YP events might change. For more details about all these events (@IAC 2020) keep on reading our newsblast every month and follow us on Twitter and Facebook - @IAFYPP.

IAF NEWSLETTER

IAF-WD/YPP committee focuses on early career professionals in all the areas of the aerospace community and provides overall guidance to IAF's Young Professional Programme. It is our pleasure to present to you the second issue of a newsletter specifically for Young Professionals and students in the space industry. Our committee's mission is to inspire the next generation of space professionals and we are constantly looking for ways to expand that beyond the International Astronautical Congress.

Click on the left picture to download your copy. We invite good scientific articles, stories, achievements etc. to be considered for publication in our newsletter. Read upcoming publications for detail. **(Next Issue: August 2020).**

This is to remind you that there is an open call for articles for our next issue of YP newsletter in the month of August 2020. Send your proposals to: iaf.wdypp@gmail.com. Deadline for article proposal submission is July 15, 2020.

IAF WD/YPP MEMBER OF THE MONTH

IAF WD/YPP
Committee

**Member of the Month
July 2020**

**Clémentine
Decoopman
(SGAC)**

Clémentine Decoopman is a Venture Manager at Creative Destruction Lab Paris. Creative Destruction Lab is an objectives-based program for massively scalable, seed-stage science- and technology-based companies. The program employs an objectives-based mentoring process with the goal of maximizing equity value creation. Previously, she was the Executive Director of the Space Generation Advisory Council, a non-profit organization that represents students and young professionals passionate about space to the United Nations as well as industry and space agencies. She holds a Bachelor of Arts in Marketing from San Diego State University, California and a MSc in International Business from the KEGE Business School Marseille, France.

IAF WD/YPP SCIENTIFIC WRITING SERIES

Webinar on “Writing an excellent Paper for IAC 2020-The CyberSpace Edition”

On Thursday, July 16, at 1000 Eastern Daylight Time in the US, 1600 Paris time, the Workforce Development/Young Professionals Programme Committee of the IAC will present a webinar entitled “How to write an excellent paper for the IAC 2020-The CyberSpace”. This webinar will be hosted by committee members Carol Carnett and Scott Madry, and will assist you in preparing your written paper, which is required for you to present at the IAC.

Following this, on August 13 at the same time, we will present a second webinar on how to prepare and record your video presentation for the virtual IAC, which will be held 12-14 October, 2020. There is no cost, and please feel free to join us, ask questions, etc.

Scott Madry

"UPCOMING VIRTUAL EVENT: UNPRECEDENTED TIMES: HOW THE SPACE INDUSTRY IS RESPONDING TO THE HEALTH AND ECONOMIC CRISES"

On July 29, 1300 GMT, the Workforce Development / Young Professionals Programme Committee will host a panel event entitled "Unprecedented Times: How the Space Industry is Responding to the Health and Economic Crises". The economic impacts of the global health crisis are running as rampant as the virus that caused them. We have seen both the best and the worst in industries around the world. But how has the space industry weathered the storm? We will hear from an international slate of space industry leaders discussing the triage tactics from the early days of the pandemic to the longer term crisis management strategies being developed today. The panel will explore lessons learned and compare the experiences from different corners of the industry from around the world. Watch for additional details and how to join this important discussion coming soon!
