The theme of the IAC 2020 – The CyberSpace Edition will indeed be about the IAF Motto: **“IAF Connecting @All Space People”**. The IAF has understood that all the measures to address the COVID-19 pandemic that rely on social distancing and social isolation are placing a huge strain on communities. As the world is grappling with this massive challenge, the role of the Federation in the space community has become of paramount importance in connecting people back together. **Virtually and for free, we will embrace resilience by being connected together.** <http://www.iafastro.org/events/iaf/iaf-2020/>
