Connecting @ll Space People
The International Astronautical Federation

Founded in 1951, the International Astronautical Federation (IAF) is the world’s leading space advocacy body with over 397 members from 68 countries on six continents including all leading agencies, space companies, industries, research institutions, universities, societies, associations, museums and institutes worldwide.

Following its motto “Connecting All Space People” and its vision of “a space-faring world cooperating for the benefit of humanity”, the Federation advances knowledge about space, supporting the development and application of space assets by promoting global cooperation.

As organizer of the annual International Astronautical Congress (IAC) as well as other thematic conferences and workshops, the IAF actively encourages the development of astrodynamics for peaceful purposes and supports the dissemination of scientific and technical information related to space.

Over the past 70 years the International Astronautical Federation (IAF) aimed to represent the whole space sector by bringing together organizations from all over the world.

Starting off in a world divided from the Cold War, the IAF has continuously increased its efforts for being as representative as possible of the changes of the sector by including year after year new countries, kind of organizations, and continents.

The IAF is now proud to count over 390 members from 69 different countries and 6 continents, and, as the interest towards space keep enlarging and including more nations, these numbers are destined to grow even more.

Membership in the IAF is open to all companies and organizations working in space-related fields. If you are interested in becoming a member please follow the below steps:

1. Download the Application Form on the IAF website www.iafastro.org or request it to the Secretariat at info@iafastro.org

2. Complete the Application Form and attach the requested documents.

3. Send everything to the IAF Secretariat at info@iafastro.org

4. We will review your application and ask in case of missing information.

5. Once reviewed, your application will be recommended by the IAF General Counsel.

6. Final approval by the General Assembly during the IAC.

To engage even further within the Federation, check our IAF Alliance Programme
